## A Message from the SURF President...

In 2020, as the world around us came to a halt, SURFers pushed forward. We participated in virtual conferences, enabling us to reach more people than ever before. We hosted **six webinars** and provided hundreds of hours of professional development hours. We released **new case studies** and started a **new technical initiative**. As we explored resilience in remediation – we too were resilient.

Along with you, I am looking forward to what 2021 will bring. I hope we are able to meet together in person to move forward our common message of sustainability and resilience. I want to extend my thanks and appreciation to our outgoing board members Matt Ambrusch, Cathy Rockwell, and Gerlinde Wolf and share my excitement for the addition of Stacey Hellekson, Rob Rebel, and Chris Schultz.

If you are ready to make a difference by joining SURF or increasing your contribution, I urge you to contact me directly. My virtual door is always open. —Betsy Collins, President (Jacobs)
