

SURF Expands Vision and Mission

At the end of last year, the Board of Trustees approved a motion to modify SURF's mission and vision statements. The approval was the result of months of discussion and member input in the form of survey responses and discussions held during the Open Board call last July and SURF membership meeting last October. The revised statements (see below) reflect a growing interest to support sustainable practices beyond contaminated site cleanups.

SURF's Vision: We envision a world that is healthy, resilient, and improved by remediating degraded environmental conditions through sustainable practices.

SURF's Mission: SURF is dedicated to advancing sustainable remedies and practices on a local and global scale through collaboration, education, and innovation.

Dive in! SiteWise™ Download Available on SURF Website

Wondering where to find the latest version of SiteWise™? We've got your back. SiteWise™ Version 3.2, including the user guide and all spreadsheets, is now available for download from the SURF website (click [here](#)). SiteWise™ was developed by Battelle jointly with the U.S. Navy, U.S. Army Corps of Engineers, and U.S. Army. For questions about the tool, e-mail EXWC_T2@navy.mil or Amy Hawkins (amy.hawkins@navy.mil).
