

SUSTAINABLE REMEDIATION FORUM

SURF Break | December 2025

SURF is celebrating our 20th anniversary next year!
To volunteer to help coordinate an event(s), email [Kathy Adams](mailto:Kathy.Adams).

That's a Wrap!

2025...what a wild ride! Although many of us working in environmental and sustainability spaces experienced changes and challenges, the energy and passion we have for our work and these topics did not wane. It was standing room only during the SURF sessions at the Spring and Fall AEHS (Association for Environmental Health Scientists Foundation) conferences and turnout at our three webinars this year broke SURF attendance records. (Recordings of all SURF webinars are on the [SURF YouTube Channel](#).)

In 2026, SURF will continue to share ideas, make connections, and collaborate to advance sustainable remediation. With 2025 almost in the rearview mirror, we want to thank our sponsors, members, and Board of Trustees for your support throughout the year. Happy holidays!
